# Framework for Action feedback form

## About the survey

Thank you for agreeing to contribute to the Framework for Action consultation, and for your continued efforts to deliver on the promise of digitally enabled healthcare.

Your feedback will be used to ensure the Framework for Action captures your organisation's key priorities as they align to the strategy, and promote the ways you are helping to empower people and those who care for them with modern digital services and products.

The Framework for Action consultation draft has been provided in the email pack you received and is also available from <https://conversation.digitalhealth.gov.au/> for reference while completing the form.

If you would like more information, have any questions, or need assistance with completing the form, please email [strategy@digitalhealth.gov.au](mailto:strategy@digitalhealth.gov.au), or call the Agency Help Centre on 1300 901 001.

## Privacy

Any personal information you provide in this form will be used by the Agency to manage and analyse your submission for the purpose of finalising the Framework for Action. The Agency may also, where required, use your personal information to contact you to seek further information with regard to your submission. Where you consent to having the name of the organisation which you represent, made public, the Agency may disclose that information on the Agency website and within the Framework for Action. For more information on the ways the Agency handle your personal information, how you can access and seek correction of the information, how privacy complaints can be made and how the Agency deals with such complaints, please see the Agency Privacy Policy on <http://www.digitalhealth.gov.au/privacy>

## Information about your organisation

Name of organisation	<u>The Australian College of Nursing (ACN)</u>
Organisation contact (optional)	<u>Carolyn Stapleton (Policy Manager); Tel (02) 6283 3431</u>
Contact email (optional)	<u><a href="mailto:Carolyn.Stapleton@acn.edu.au">Carolyn.Stapleton@acn.edu.au</a></u>
Organisation website	<u><a href="https://www.acn.edu.au">https://www.acn.edu.au</a></u>

Which of the following best describes the role or function of your organisation:

- Healthcare provider organisation
- Industry, science, research and technology sector
- Clinical peak body or medical college**
- Peak advisory and advocacy organisation
- Primary Health Network
- Commonwealth Government department or agency
- State or territory government department or agency

# 1. Rank the top 10 activities in respect to your organisation's priorities

1 = highest priority. You may indicate a rank for up to a maximum of 10 activities.

For information on each activity, please refer to the Framework for Action consultation draft.

My Health Record		Secure Messaging		Interoperability		Medications Safety		Enhanced Models of Care		Workforce & Education		Driving Innovation	
1	1.1.1 My Health Record Expansion Program		2.1.1 National Provider Addressing Service		3.1.1 National Interoperability Strategy		4.1.1 Digital Medicines Program Blueprint		5.1.1 Digital health test bed framework	3	6.1.1 Supporting adoption by the health workforce		7.1.1 Build insights into barriers to digital inclusion
	1.1.2 Future use of the My Health Record		2.1.2 Standards based secure messaging capability		3.1.2 Co-design standards and specifications		4.1.2 Electronic Prescriptions		5.1.2 Embedding Telehealth	4	6.1.2 Digital health embedded in training	9	7.1.2 Advocacy for innovation and digital inclusion
2	1.2.1 Secure use of My Health Record data	10	2.1.3 Nationally coordinated programs		3.1.3 Conformance, compliance and accreditation framework		4.1.3 Best Possible Medicines List	8	5.1.3 End of Life Care	5	6.1.3 Digital health in national standards and accreditation		7.2.1 Innovation Showcase
			2.1.4 Roadmap for leveraging national infrastructure		3.1.4 Increasing digital maturity		4.1.4 National Medicines Data Service	7	5.1.4 Chronic disease management				7.2.2 Developer Partner Program
			2.2.1 National Authentication and Identification Services		3.2.1 National Health Technology Strategy		4.1.5 Medicines information for consumers	6	5.1.5 Residential Aged Care				7.2.3 Digital health services endorsement framework
			2.2.2 Strategic Sourcing Review		3.3.1 Enhance national data services		4.1.6 Medicines Decision Support Tools		5.1.6 Children's Health Record				7.2.4 Health Innovation Exchange
					4.1.7 Enhance incident reporting capabilities		5.1.7 Emergency Care						7.2.5 Partnerships with accelerators and incubators
					4.1.8 National Allergy Strategy								7.2.6 Development of design principles
					4.1.9 Real-time prescription monitoring								7.2.7 Support for app enablement

2. Using (a maximum of) the top 5 priorities nominated in Question 1, indicate the role your organisation will have to take in order for the activity to be delivered.

*For information on the Roles of Participants Index, please refer to the Framework for Action consultation draft.*

*The first line is completed as an example only.*

#	Activity #	Activity name	Lead	Partner	Support	Advocate	Engage
1	1.1.1	My Health Record Expansion Program	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
2	1.2.1	Secure use of My Health Record data	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
3	6.1.1	Supporting adoption by the health workforce	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4	6.1.2	Digital health embedded in training	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5	6.1.3	Digital health in national standards and accreditation	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

### 3. What are the digital health initiatives your organisation is leading that you would like considered for inclusion in the Framework for Action?

Strategic priority area	Your initiative's name	Initiative description	Partner organisations (if applicable)	Implementation timeline (if applicable)	Link for further information
7. Driving Innovation	Nursing Informatics Position Statement	A joint position paper with the Health Informatics Society of Australia (HISA) to affirm the role of nurses in digital healthcare (i.e. leading and partnering in decision making; acting as knowledge brokers; transforming services; and empowering patients in self-care)	HISA; Nursing Informatics Australia (NIA)		<a href="https://acn.edu.au/wp-content/uploads/2018/02/nursing_informatics_position_statement_28092017_-_hisa_acn_nia2.pdf">https://acn.edu.au/wp-content/uploads/2018/02/nursing_informatics_position_statement_28092017_-_hisa_acn_nia2.pdf</a>

#### **Strategic priorities**

1. My Health Record
2. Secure Messaging
3. Interoperability and Data Quality
4. Medications Safety
5. Enhanced Models of Care
6. Workforce and Education
7. Driving Innovation

4a. Are there national level activities that are not represented in the consultation draft that are necessary in order to deliver on the outcomes in the strategy?

- No
- Yes (see below)

4b. If yes, please include information below on activities that should be included in the Framework for Action

Strategic priority area	Activity name	Activity description	Organisations that should lead and/or partner to deliver activity
6. Workforce and Education	Supporting Evidence based practice	Digital Health and models of care embedded in evidence based practice (EBP). Endorsing educational material that collectively covers a range of priority health topics (e.g. end of life care), supports EBP and encourages becoming digitally literate, to ensure consistent, high quality information is available to healthcare professionals.	ACN to lead the nursing models of care in collaboration with HISA and others.

**Strategic priorities**

1. My Health Record
2. Secure Messaging
3. Interoperability and Data Quality
4. Medications Safety
5. Enhanced Models of Care

*6. Workforce and Education*

*7. Driving Innovation*

## Your responses

Responses to this survey may be published. Please indicate your consent below.

- I consent to my comments being quoted publicly and my organisation wants to be identified.
- I consent to my comments being quoted publicly as long as my organisation is not identified
- I do not wish to be directly quoted.

## Thank you for providing your feedback!
