REGISTER HEREacn.edu.au/2020-roadshow

2020 has been declared as the official year of the Nurse & Midwife by the World Health Organization. This is the first time our profession is being acknowledged on a global scale. Join us to celebrate this historic occasion at the ACN 2020 Year of the Nurse & Midwife Celebration Roadshow!

This complimentary roadshow will incorporate a panel discussion followed by an opportunity to connect with like-minded nurses at a networking reception.

DISCUSSION TOPIC

Nearly one quarter of Australian children aged 2 – 17 years are overweight or obese and these numbers are expected to grow. Not only is childhood obesity costly to treat and prevent in the current obesogenic environment, it often leads to obesity in adults and the development of chronic life-limiting conditions such as diabetes.

Over a third of the children and young adults with obesity are in regional and remote areas. Nurses represent the largest group of health care practitioners in Australia and have the widest distribution across the country. Often, a nurse is the only health care practitioner available in some communities.

Nurse-led interventions in settings such as childcare facilities and schools have been found to have positive benefits for obese children as well as being feasible and cost effective.

Come along and learn more about nursing interventions in this challenging area of preventative health care.

**JOIN US FOR THE NURSESTRONG STEP-A-THON!**

The morning after each Roadshow we will be getting active, enjoying some fresh air and connecting with like-minded nurses during our NurseStrong Step-a-thons. We can't wait to see how many steps we can accomplish collectively, because we are powerful individually and unstoppable together!

You can register to attend the Sydney NurseStrong Step-a-thon when you complete the free registration for the Sydney Roadshow event.
