

Be part of something bigger.

There's safety in numbers. And with safety comes confidence; the confidence to fly high and reach new heights, especially in your career. At Guild, we've dedicated the last 59 years to building a network of professionals to provide the support to help you reach those heights.

We've partnered with the Australian College of Nursing (ACN) for over 11 years, working with them to grow the network that's dedicated to protecting you and safeguarding the future of your profession. When you're a part of Guild, you're part of something bigger.

Australian College of Nursing

Don't go it alone

We're here so that you don't have to fly alone.

We've partnered with ACN for over 11 years now, helping to protect the future of your profession by making sure no ACN member has to fly solo. By working with your profession, we're able to build a policy that understands what you do, so we're there when things don't go your way.

Full cover for all nursing practices you undertake

With Guild, you are covered for full scope of practice; that's everything you're undertaking in your capacity as a nurse. And if an incident occurs, Guild Insurance is there to support you every step of the way, backed with the experience and insights to help you respond to a claim.

More than just insurance

As part of our community, you have access to RiskHQ, our online risk management resources centre filled with articles and free CPD based on data we've collected over the 59 years we've been operating. You can visit RiskHQ at any time to read up about the unique risks you face as a nurse. We cover a variety of risks, from navigating communication with patients, and managing complaints through to using telehealth during appointments. Visit riskhq.com.au to find out more.

Every piece of the big picture counts

No one understands the big picture of your profession better than the people who work in it. Combining our 59 years' experience protecting allied health professionals, and the knowledge of your peers at ACN, we work together to make every small part of our policy make a big difference to your cover.
